

Kirill Shevchenko

Full Stack Developer | React, Redux, NextJS | Web Development with 3D Integration | Specializing in Back End PHP Development

vimpilteam@gmail.com | <https://www.linkedin.com/in/lifetrue> | Podgorica, 81000, Montenegro | +382 69 940 376

Summary

- Developed over 50 3D graphics projects, including interactive models for jewelry companies, increasing sales by 10%.
 - Launched over five Full Stack projects with React, PHP, and MySQL, demonstrating strong proficiency.
 - Built responsive websites using JavaScript, Bootstrap, and jQuery, delivering seamless browser experience.
 - Completed Data Analysis and Solidity courses, enhancing technical expertise.
-

Work Experience

Full Stack Developer | Self-employed | Remote | 09/2017 - Present

- Developed over five web projects using CMS, PHP, and MySQL, including two e-commerce sites, meeting all client deadlines.
- Improved SQL queries for a site with over one million visitors, achieving eight times faster response times.
- Optimized web performance by integrating ThreeJS and Blender for a 3D interactive map, refining models to reduce load times by 40%.
- Created a Solidity-based smart contract, tested on Ethereum testnet with 100% test coverage.
- Applied Python for data analysis in university projects, visualizing insights with pandas and matplotlib.

Full Stack Developer (Project-based Internship) | OneBrain | London, England | 04/2023 - 08/2023

- Led React, Redux, and NextJS frontend development, integrating over five animations for OpenAI.
- Built a Google Sheets app, automating data processing and reducing workload by 30%.
- Collaborated on six API connections, resolving backend updates in two weeks.

Content Manager | WebElement | Pyatigorsk, Russia | 02/2017 - 07/2017

- Developed three responsive websites with HTML, CSS, JavaScript, and Yii2, managing 50+ updates.
- Tested ten cases for atd-diesel.ru, reducing performance issues by 25% monthly.
- Facilitated cross-platform access for 15 sites, elevating user experience.

Junior Frontend Developer Internship | Web Porosya | Kiev Region, Ukraine | 09/2016 - 01/2017

- Built four responsive websites with Bootstrap and jQuery, ensuring cross-browser compatibility.
- Streamlined JavaScript and PHP CMS functionality, boosting performance by 20%.
- Delivered five mobile-compatible projects with refined user experience.

3D CAD Jewelry Designer | Attis | Kislovodsk, Russia | 01/2012 - 11/2015

- Created 300+ 3D jewelry models using Matrix and ZBrush, enhancing production efficiency by 15%.
- Refined 50+ furniture renders in 3D Max, achieving 1,000+ online downloads.

Junior Java Developer Internship | Skanatek | Stockholm, Sweden | 01/2015 - 05/2015

- Implemented Git version control for five Docker-based exercises, optimizing workflows.
- Resolved five weekly coding tasks in Java and Ruby, strengthening project deliverables.

Core Skills

- **Frontend:** React, Redux, Next.js, JavaScript, TypeScript
- **Backend:** PHP, MySQL, Symfony
- **Tools:** Git, Docker, ThreeJS, WordPress

Education

- **Metropolitan University | Information Technology Courses | 09/2024 - Present**
 - Introduction to Programming (Python), Fundamentals of Information Technology, MA104 Mathematics
- **Specialized Educational and Scientific Center of UrFU | High School Diploma | 09/2005 - 05/2008 | GPA: 4.6/5.0**

Languages

- **English:** Professional Working
- **Serbian:** Limited Working
- **Russian:** Native

Certificates

- Solidity Zero to Hero Course | CodiesAlert | 04/2024
- Data Analysis with Python | freeCodeCamp | 01/2024
- Duolingo English Test | Duolingo | 01/2024
- Front End Libraries | freeCodeCamp | 08/2020
- JavaScript Algorithms and Data Structures | freeCodeCamp | 06/2020
- Responsive Web Design | freeCodeCamp | 11/2018
