VERSATILE TECHNICAL PROFESSIONAL: EXPERTISE IN DEVELOPMENT, DESIGN, & CUSTOMER SUPPORT

I am a versatile professional skilled in various domains, including customer support and developing. My proficiency spans React, Redux, NextJS, PHP, and WooCommerce. I excel in crafting high-performance applications with animations using ThreeJS and have led projects optimizing processes and creating interactive solutions. With a diverse background in design, development, and 3D modeling, I offer a unique fusion of technical and creative abilities.

WORKING EXPERIENCE

BACKEND & FRONTED DEVELOPPER

OneBrain AI Startup | 2023.04~2023.08

Led the development of a cutting-edge frontend using React, Redux, NextJS, Postman, HTML, CSS, and JavaScript, incorporating animations with After Effects, resulting in a highly responsive and captivating user-friendly application.

WEB DEVELOPER

Freelancer | 2017.06 ~ 2021.05

Demonstrated proficiency in CMS, databases, PHP, development on commercial projects.

CONTENT MANAGER

Web Element | 2017.02 ∼ 2017.06

Developed responsive websites and improved CMS themes.

JEWELRY CAD DESIGNER

Attis | 2012.II ~ 2016.0I

Expertise in 3D modeling, sculpting, printing, cutting, rendering, and programming for CNC jewelry.

EXTRAORDINARY EXPERIENCE

ASSISTANT AT URAL UZEL JOURNAL, 2008

Helped out to a Ural Uzel establishment's journalist with declassifying secrets of Russian rocket scientists in cooperation with Nobel scientists. Received positive feedback from country's renowned publications such as Komsomolska Pravda. Source: here.

EDUCATION

METROPOLITAN UNIVERSITY | 2024~2028

Serbia, remote, Information technologies

URAL STATE UNIVERSITY | 2008~2010

Russia, Yekaterinburg, Philosophy

WEB DEVELOPER WITH 3D SKILLS

I began programming in 2003 with Basic, Pascal, and Borland C++, while also developing skills in 3D graphics. By 2020, I became a Full Stack Developer, mastering both Front End and Back End development. My humanities education provided strong soft skills and a solid ethical foundation in IT. I am currently enhancing my web development skills with a focus on data analytics and neural networks. Pursuing a Bachelor's in Information Technology, I seek a role in a company where I can grow and advance in the IT field. I provide my services through invoices as an independent contractor, so no employment arrangement is needed.
